WHILE UNCLE SAM DELAYS

Spain Takes Advantage and is Massing Her Vessels.

MANY BOATS OF VARIOUS KINDS

Much Industry Manifested at Teneriffe, Where Quarters Have Been Secured for 6.000 Additional Troops.

THE FORTIFICATIONS OVERHAULED

PROVINCETOWN, Mass., April 18.—Captain Webb, of the barkentine Morales who reached this port from Ponce, Porto Rico, to-day, reports that on April 6, the day before he sailed from Ponce, eight Spanish torpedo boats arrived at that port from the Canaries. Two Spanish men-of-war were there already. A Spanish cruiser also was sighted in Mona passage as the vessel sailed.

NEW YORK, April 18.—Dispatches from St. Vincent, Cape Verde Islands, April 14 stated that the two flotillas of Spanish torpedo boats and torpedo boats destroyers and the cruisers Cristobal Colon, and Santa Maria Theresa were then at that port.

ST. VINCENT, Cape Verde Islands, April 18.—The Spanish transport San Francisco arrived here this afternoon having on board a cargo of coal intended for the Spanish squadron.

NEW YORK, April 18.—Arturo Balkasano, consul general of Spain in this city said to-day that acting under instructions from the Spanish minister, arrangements had been made to afford transportation to all Spaniards in this city who are anxious to leave this country, and that about 150 would sail on April 20 by the steamer Panama. This, he said was simply done to satisfy those who, fearing that in the present crisis war might be declared, preferred to sail at once.

When asked what steps would be taken in the event of war and whether he would charter a vessel for those who cared to leave, he said, "I received no instructions as yet on that account, and I cannot say exactly what steps would be taken under these circumstances."

"I do not think that of the 3,000 or more Spaniards in this city more than 400 or 500 would see the necessity of returning to Spain. Transportation will be furnished by the Spanish government for those who have not the means to pay passage but who wish to return to Spain. The departure of those on Wednesday is the result of applications received from Spaniards for the means of leaving, the applications having been passed upon by the Spanish minister, without particular reference to the conditions that exist at Washington.

HAVANA, April, 18.—The work of fortifying the coasts of Cuba from a Spanish standpoint is progressing rapidly and effectively.

As anticipated by almost everybody, General Pando the Spanish commander-in-chief in the field, has returned here after a number of useless efforts to prevail upon the insurgents to arrange terms of peace and many people here predict that the efforts of the autonomist government will prove equally fruitless. The insurgents maintain the stand which they have held all along, namely, will not accept anything short of independence.

HAVANA, April 16—8:30 P. M.—This morning Senores Pedro Rabelle colonial secretary of posts and communications; Dolz, Giberga and Leopoldo Sola, a well known lawyer, designated by the autonomist government as a parliamentary commission to approach the insurgent leaders in Eastern Cuba, left by rail for Batanbano, from which point they will proceed by a coast steamer to Santa Cruz Del Sir, to ascertain whether the insurgents in the province of Puerto Principe will accept the armistice. If received the commission will indicate a neutral zone and propose a place of meeting. Senores Juan Ramirez and Silvestre Anclada, prominent autonomists and members of the central committee, have been appointed by the commission with the same end in view. They left this morning for Santa Cruz Del Sur, where they will use their influence in the name of the autonomist party, but independently of the parliamentary commission. There are great expectations as to the result, which is anxiously awaited.

At 10 o'clock General Blanco had a conference with the president and secretary of the commercial chamber, shortly after the action of the American senate began to be freely reported about the city, with reference to the commercial issues involved and the relation of the trade of the port to existing circumstances. Other authorities of all classes called at the palace and General Blanco conferred with the chiefs of the political parties.

MADRID, April 17.—Perfect order reigns in Madrid, the streets were this evening thronged with promenaders. The Edcoa, (conservative), refered to the outbreaks of popular feeling in the provincial towns, counsels the government to deal gently with the rioters, considering the provocation received from the American public and parliament and even from the president and urges the Spanish nation to continue its dignified attitude standing shoulder to shoulder in defense of the nation's rights.

GOOD THING FOR BELLEFONTE.

A Branch of the University Association Likely to be Formed in this City.

Misses Gertrude Edmundson and Maude Stephen, of Chicago, are now in Bellefonte and have organized what is called a University Association. Bellefonte is greatly in the need of an organization of this kind, and we hope the people will do all in their power to move this work along. We are pleased to call attention, in brief, to the aims, objects, and plans of the University Association and World's Congress Extension, a branch of which will probably be established in our city.

The University Association is not connected with any one University, but is rather a federation of the teaching powers of the principal universities and colleges through the world.

Not So Bad as Reported.

Reports received at the department of Agriculture at Harrisburg indicate a much less serious injury to the fruit crop than had been foreshadowed by the early correspondence in reference to it. The effect of the great frost was very irregular in its effects on blossoms. In the higher elevations the damage done to fruit was appreciable, but in lower sections, where moisture accumulated, the frost wrought much havoc in many instances. In the colder latitude of the state very little injury was done to fruit because its germs were not sufficiently advanced to make trouble.

College Boys will Debate.

A debate between State and Dickinson colleges will take place at State College, Friday evening, April 22, on the question, "Resolved, That the United States Government should establish a National University". State has the affirmative and Dickinson the negative. State's orators will be Andrews, '98; Carpenter, '99, and Ruslander, 1900, with Bell '99, as alternate.

Gov. Hastings will preside at this meeting. A special train will leave Bellefonte at 7 p. m. Fare 50 cents.

—A new hat is something a woman can always undergo.

—Simon King, of Shickshiny, has taken charge of the Coburn hotel.

—Capt. Harry Simler, of Philipsburg, began his duties as mercantile appraiser on Monday morning.

—Wm Evey, the painter, is rejoicing over the arrival of a big bouncing baby girl.

—Don't forget that the specialist, Dr. Geo. B. Wix, whose ad appears in another column, will be at the Bush House April 26th, between the hours of 10 a. m. and 1 p. m., where all afflicted with rupture in any form may have consultation and examination free.

NITTANY ROD AND GUN CLUB

Streams on Its Preserves Alive With Speckled Beauties.

QUAIL AND PHEASANTS PLENTY

Stringent Rules Governing Members and Their Guests—Connected With the Outer World by Telegraph and Telephone.

A LARGE MEMBERSHIP ROLL

Notwithstanding the very good prospects for a successful trout fishing season this year in all parts of the State, possibly the most-to-be-envied sporting association is the Nittany Valley Rod and Gun club, on whose preserve in Nittany valley, Fishing creek will undoubtedly prove the mecca for anglers of any of the numerous trout streams to be found in Pennsylvania. Just about a year ago the Nittany club was organized in Williamsport with some 60 members, composed mostly of residents of Central Pennsylvania. They at once secured 20,000 acres of land in Nittany valley, Centre county, and established what is now one of the best game and fish preserves to be found anywhere. Last Summer the low lands were liberally stocked with quail, which afforded abundant shooting in the Fall, and early this year 5,000 more were brought here from Iowa and turned loose for the Summer hatching. By the opening of the quail season it is expected that there will be from 25,000 to 30,000 quail on the preserve.

In addition to the shooting the club has made it a most desirable resort for trout fishing. Within the bounds of the preserve Fishing creek runs a distance of 100 miles. On this creek were constructed a large number of dams. It was always one of the best trout streams in the State, but last Fall there were secured from private hatcheries in New York State and put in the stream 5,000 six inch trout and 5,000 three-inch, so that it is now veritably alive with the speckled beauties, and members of the club anticipate a season of rare sport. For the information of the members the Stream committee has posted the following rules and regulations:

The open season for taking brook trout on this preserve shall be from April 19 to July 4, inclusive.

No trout under six inches in length shall be killed

No member shall take more than 25 trout in any one day, nor more than 300 during the season.

The catching of trout shall be confined to rod, line and artificial flies. Bait fishing or any other means than as stated herein is prohibited.

A member may invite a guest to whom fishing privileges may be extended for a period of one week, but the total score of the member and guest shall not exceed 25 trout per day, and these privileges shall not be given to the same guest but once during the season. Members are required to record each day's catch in a book provided for that purpose.

A penalty of $5 for each violation of any one of the above rules will be exacted.

The club intends to see that every one of the above rules is strictly enforced, in the hope to protect the trout to a very great extent for future propogation.

The club has a large and convenient house located on the preserve, close to the railroad station, as well as Post Office, and connected with the world at large by both telephone and telegraph, so that business men can have all the necessary means of communication desired with any given point.

The present officers of the club are: President, J. Henry Cochran, Williamsport; secretary, C. E Sprout Williamsport; treasurer, John P. Harris, Bellefonte. The annual meeting for the election of new officers for the ensuing year will be held next month.

As stated above, since the first organization of the club there has been almost a complete revolution in its membership. Many of the orignal members dropped out for various reasons, but others came in, so that now the club has 82 members in good standing, and representing almost every portion of the State, Pittsburg and Philadelphia residents comprising fully one fourth the membership.

Foster's Forecast.

My last bulletin gave forecasts of the storm waves to cross the continent from April 5th to 9th and 11th to 15th.

The next disturbance will reach the Pacific coast about 15th, cross the west of Rockies country by close of 16th, great central valleys 17th, eastern States 20th.

Warm wave will cross the west of Rockies country about 10th, great central valleys 17th, eastern States 19th. Cool wave will cross the west of Rockies country about 18th, great central valleys 20th, eastern States 22d.

Temperature of the week ending April 16 will average about normal. Rainfall will generally be below normal for the same period.

The warning given of the great cold wave of March 23 was timely and remarkably accurate. After such wonderful verifications, how can any fair-minded person doubt that magno-meterology indicates the true physical basis for weather forecasts?

For the northern States the forecasts for March were: "Cold at beginning, followed by a long period of hot weather, terminating, not far from 23d, in a severe cold wave." The rains in the Ohio valley were also specially foretold.

Baptists to Gather.

Harrisburg has been selected as the place to hold a big state gathering and next October the representatives of 103,000 Baptists will meet in that city to celebrate their seventy first anniversary of the state organization.

The meeting of this large society in Harrisburg, which will have from 400 to 500 delegates, was decided upon unanimously at a meeting of the board of managers of the society held in Philadelphia.

The session will begin on October 17, and every county in the commonwealth will be represented by delegates chosen from the Ministerial Union, Baptist Educational society, Baptist Young Peoples' union of Pennsylvania and Woman's Mission Workers. There will be three sessions a day during the week and addresses will be made by ministers and men prominent in the educational work conducted throughout the state by the Baptists.

First Meeting Friday Evening.

The University Extension association, composed of about twenty five members will hold their first meeting on Friday evening in the parlors of the Y. M. C. A. The meeting will be called to order promptly at 7:30. Misses Edmundson, and Stephens the young ladies who have organized this association are anxious to have all the members present at the first meeting as subjects of great interest will then be discussed. Remember the evening is Friday at 7:30 p.m. in the association Hall.

—Col. W. Fred Reynolds and Messrs D. Zellers, C. F. Montgomery, Dr. George Harris, Joseph L. Montgomery, Dr. J. L. Seibert and H. H. Montgomery, have been elected vestrymen of St. Johns Episcopal church. The vestry elected Colonel Reynolds senior warden. The Rev. Thos. Stevenson, has completed his engagement for holding service during Lent and goes to his home in Corry, leaving the church without a pastor.

—Frederic A. Harris of Tyrone, has been granted a patent for a car-fender.

SAGASTA SPEAKS!

Says Events Call for Action Now and Not Words.

HE WAS FREQUENTLY APPLAUDED

The Dissident Conservatives Will Stand by the Government—Queen Regent's Speech to Be Brief and Firm.

SOME MORE NEWSPAPER COMMENTS

MADRID, April 19, via PARIS, April 19.—The supporters of the government in both houses of parliament met in the senate chamber at 5 o'clock this afternoon. Senor Sagasta, the premier, addressed as follows;

"The times are so grave and the circumstances are so exceptional that acts and not words are necessary to face the present difficulty. Attempts are being made to sully the glorious history of Spain by an infamous calumny. The different Spanish governments have done their best to avert the war to which we are being provoked. We have now reached the limits of concession compatible with honor and territorial integrity.

We consented to the last concession at the instance of the pope and the powers. We yielded in fact; but now attempts are made upon our honor and menaces directed against our territory. That is a thing to which Spaniards will never consent (Applause). This is not the moment to trace a parliamentary programme, but the moment to unite ourselves, as our fathers have done, in the face of an odious attempt against the integrity of our territory. The insult offered us today is the most infamous that has ever been offered." (Prolonged applause).

Continuing, Senor Sagasta counseled the rapid costitution of the chambers in order to accord to the government the means to defend the country's interests. "Spain," he added, "will not allow a parcel of her territory to be taken from her with impunity, nor will she be a party to any trafficing for her possesion." (Applause.)

The ministers met today to receive the speech from the throne in conformity with the law. Senor Silva, leader of the dissident conservatives, when addressing his party, declared it "inopportune to formulate a political programme." He envoked the memory of the late Senor Canovis Del Castillo, and declared that he and his party would aid the government by voting as much as should be necessary for the national defense, without any opposition, although making note of the responsibility incurred, in order to investigate it, if need be, at a more opportune time. He declared, also, that the dissident conservatives would respect whatever financial arrangements the government might enter into, no matter what they might cost, as it was the "only means of securing, later on, peace with honor."

The terms of the speech which the queen regent will deliver at the opening of the cortes to-morrow are jealously guarded, but it is said the speech will prove firm, convincing and satisfactory to the national sentiments. It is claimed here that perfect unanimity prevails in Spain to face war rather than yield to the demands of the United States.

An official note issued this afternoon says negotiations are actively proceeding between the colonial government of Cuba and the insurgents of that island, with the view of obtainiug the submission of the latter as a result of further concessions regarding autonomy.

AXE MANN ITEMS.

Very changeable weather for a few weeks past.

The Normal school which was started at Pleasant Gap, nearly two weeks ago, has not proven a success and the students who were attending from our town are very much disappointed.

Mr. R. M. Kaup and family spent several days with his mother at Oak Hall last week.

We are sorry to note the serious illness of Mrs Koch, whom we reported to be recovering in last week's issue, which was false. Her speedy recovery is hoped for by her many friends.

Mrs. Gross went to Lewistown last week where she expects to visit friends for a few weeks to come.

War, war, war, is all you hear in our town. Jakie Reifsnyder says he isn't afraid of three dozen Spaniards.

The wheat and grass around our section looks very good and promises a fair crop.

Miss Helen Jodon has been very ill for some time with whooping cough and other complaints which are causing her serious trouble.

Mr. Steward and also Mr. Miller are making improvements around their homes this week.

Mrs. Hunter spent a greater part of this week visiting relatives at Lemont.

Quite a few of our young men expect going to Punxsutawney next week. We wish you good luck, boys.

Fishing season came in last Friday and since that time a great many fisherman have been along this stream trying to capture speckled beauties, but they all seem to have poor luck.

William H. Wagner Buried.

Hundreds of people gathered at the Wagner home in Milesburg on Sunday afternoon at two o'clock to pay their last respects to one who was well liked, and one who was considered by all a good citizen.

The large home was crowded with friends and the front yard and road, were also thronged with people, who were all anxious to hear the good words uttered by the ministers.

Rev. J. W. Zeigler, the Advent minister and Rev. W. O. wright, of the Presbyterian church, conducted the services. The text was based on "Whatsoever thy hand findeth to do, do with thy might, for there is no, work nor device nor knowledge nor wisdom in the grave, whither thou goest."

The singing was lovely, and many weeping eyes were seen, throughout the great mass of people.

After the services at the house the funeral cortege repaired to the Union cemetery in Bellefonte where they interred the last mortal remains of Wm. H. Wagner.

The pall bearers were the following gentlemen, Messrs George Noll, John Swartz, C. P. Stonerode, James McMullen, Thomas Murray and Constance Eckart.

Patriotic People.

Up in DuBois a woman in the Fourth ward pulled all the dandelion blossoms from her lawn because the unfortunate little flowers happened to be colored yellow like the Spanish flag. A Third ward man has killed his yellow pup for the same reason. A Second ward woman has threatened to purchase all the yellow decorations in the millinery stores and construct a huge bonfire of the same. The First ward recognizes no color but green and yellow has no place there except in butter, eggs and cheese.

—the editor of the Mifflinburg Telegraph says that" ye chappies who envy the old worn out soldier his pension, may soon get even or level with him by standing up to shoot Spaniard and be shot by them. Try it and see how lovely it is"

MET A HORRIBLE DEATH!

William H. Wagner, of Milesburg, Instantly Killed.

CAUGHT IN THE FLY WHEEL

The Machinery Had to Be Stopped Before His Body Could Be Removed—His Head Cut Off Below the Nose.

EVERY BONE IN HIS BODY BROKEN

Friday afternoon the town of Milesburg, was terribly shocked, by a most horrible accident, which happened at Wagner's grist mill and which resulted in the death of Mr Wm. H. Wagner the proprietor.

It was about 4.30 o'clock, when Mr. Wagner who had been at work in his office, went into the engine room to examine the machinery.

There was no one in the room at the time except Mr. Wagner and just how the accident happened which we are about to relate will probably never be known,

He had only been in the room a few minutes when his son, Harry who was at work up stairs heard a noise and on running down, was horrified to see his father's body entangled in the rapidly revolving fly wheel.

Before they could extricate him they were compelled to shut down the machinery. When removed Mr. Wagner was quite dead. His head was cut off from below the nose and every bone in his body was broken.

Just how the accident happened will probably never be known but it is thought that on coming into the room, he tripped and fell into the fly wheel. Another theory is that he was working around the machinery when the governing balls on the engine struck him, throwing him into the wheel.

Wm. H. Wagner was born in Bellefonte and was fifty years of age. He was the son of the late John M Wagner who during his life was one of Centre counties leading miller's and grain merchants. William grew up in the milling business, and at the time of his death was doing a successful business as proprietor of the mill which his father before him conducted so successful. The deceased is survived by his widow whose maiden name was Miss Ellen Shope and by the following children: Harry, Sadie, Vergie, Frank, Wilbur, Edith and John.

One brother and six sisters also survive him namely:

John M. Wagner, Mrs. Lew Wallace, Mrs. James Weaver, Miss Ellie Wagner, all of Milesburg; Mrs. Frank Weaver, of State College, Mrs. John Keichline and Mrs. Peter Keichline, of Bellefonte.

The funeral took place Sunday afternoon at 2 o'clock from the residence on Pike street, Milesburg. Interment in Union cemetery at this place.

In Memory of John M. Kenepp.

Oh dear brother thou hast left us
and the shock, it was terrible to bear.
But God saw that he had need of thee,
and he will all our sorrows share.

God's ways are mysterious to all,
and yet he knoweth all things best.
And with God's helping hand we hope to meet thee,
In that bright home in Heaven where all is rest.

The shock it came so very suddenly,
to think that just two weeks before
you had left us so happy with your bride
and little did we think, wee'd see your face in life no more.

While my child was spared to me,
I feel very gratful to the Lord;
but then to think, it cost anothers life,
It surely does seem hard.

Oh dear brother if I could only tell you,
how your dying prayers have been answered;
and Oh what Glory shall be yours, in Heaven!

He died that others might be forgiven.
When we count our number over, brothers, sisters, all,
with sorrow in our hearts we find one vacant chair;
but there is a spot, in a green hillside not faraway
that we know contains him who has been taken away,

We are traveling to a better land,
and one by one wee'l soon be there;
Then wee'l meet our loved ones gone before us,
Where we can dwell with them for evermore.

Farewell dear brother, we part but not forever;
Beyond this veil of tears and sorrow,
when the trumpet of the Lord shall sound.
If we are faithful then we shall all be called.—Written by a sister Mrs Lizzie Hogarth.

What it Would Cost.

To equip the National Guard of Pennsylvania on a war basis it would be necessary to add 45 men to each company.

To equip the 6,000 men to fill the N. G. P. the State would be required to expend at once almost $200,000. A uniform costs about $9. A gun will cost the State $10 at wholesale rates. In addition to these items of outlay, the following articles would be needed by each new guardsman; A knapsack, a haversack, a canteen, a knife, a fork and a spoon, a meat ration can, side arms, and cartridge box, a rubber blanket and a woolen blanket. The sum total of equipment for each man would be about $30. These figures were gleaned from guard officers, who talked quite freely on the outlook.

The boys are paid only when in service Privates are paid $1.50 per day for the first three years' enlistment. Should they re-enlist within thirty days, they receive $1.75 when on duty during the next three years. A second re-enlistment brings their pay up to $2, and there stops. A corporal draws $1.75 per day; second sergeant, $2; first sergeant, $3; non-commissioned staff officers, $2; second lieutenant, $3.89; first lieutenant, $4 17; captain, $5; major, $6.66; lieutenant colonel, $7.-25, and colonel, $9. These are figures paid by the state, but should the boys go into the national service they would be reduced to regular army pay.

Sympathetic Husbands.

The sympathetic tenderness of a loving husband is everything to an expectant mother, especially during her first ordeal. George Layton, Esq., a prominent druggist of Dayton, O., gives the following case:

A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, and the cost was $100 per bottle, she would have them.

"Mother's Friend" is a scientifically compounded liniment which affords certain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles involved in the final ordeal.

"Mother's Friend" is sold by druggists, or expressed on receipt of one dollar.

Valuable book, "Before Baby is Born," mailed free on application.

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

—For more than a year past it has been known that the Y. M. C. A. of this place has been unable to meet its indebtedness. Mr. George Meek, editor of the Watchman, and a member of the association, thinks such a state of affairs should not be consequently he is arranging for a weeks entertainment day and evening in the Opera house, the performers to be of local repute. It will be a variety performance at popular prices, from which Mr. Meek expects to receive sufficient funds to pay off the indebtedness of the association and then disband it. Every person should assist Mr. Meek in his laudible ambition to do what is the correct thing in the premises.

EGYPT'S ART OF FLOWERS.

A Process of Preserving Their Color and Freshness for Centuries.

It has been discovered that the ancient Egyptians possessed some mysterious method for preserving natural flowers so perfectly that they have remained during thousands of years with all their original color and freshness. This curious discovery has been made by Professor Flinders Petrie, the noted Orientalist, who arrived a short time ago in England.

He brought with him several boxes of flowers in boquets and wreaths. The flowers include the most delicate blossoms like those of the lotus, the lily and the date, and their coloring is as delicate and brilliant as if they were still upon the plant. It appears from a careful examination of these flowers, which Professor Petrie says are several thousand years old, that the ancient Egyptians knew some secret method not only of preventing vegetable decay, but of preserving every one of the brilliant colors to be found in the variegated flora of Egypt.

By means of this collection our knowledge of the flowers indigenous to Egypt in the remote past has been doubled. Several entirely new and distinct species which appear to have vanquished from the face of the earth during the intervening thousands of years, have been found in these ancient bouquets without a leaf gone, with every petal perfect and even elastic and flexible to the touch. The colors range from the most brilliant red, blue and orange to delicate pinks and shades of azure.

The remarkable collections of flowers which Professor Petrie has brought from Egypt were found by him in a cemetery at Hawara. From the fact that these flowers were discovered in or about the tombs of the cemetery and have never been found in any other part of Egypt, it is inferred that they were only preserved as a sacred funeral rite at this particular place. They were all cut flowers, detached from their roots. Some of the most beautiful of these wreaths were taken from the inside of a large stone sarcophagus.—New York Journal.

THOMAS A. EDISON, JR.

True Disciple of His Father, Inheriting Much of His Ability.

A new personal power is risen in the world of invention. He is none other than Thomas A. Edison, jr., son of the world-renowned electrician and inventor, Wizard Edison.

Young Mr. Edison is only twenty-one years of age, but he is already in business for himself on a large scale and has proved that in his case at least genius is hereditary.

Thomas A. Edison, jr., inherits not only the genius but the features of his father. They are classical features. His complexion is very dark, his face is smooth-shaven, and he wears his thick, black hair unusually long, falling in a wave over his ears and down nearly to his shoulders. He looks like a genius. His eyes are piercing, and on his brow is the deep scowl of the intense student. He is almost exactly the same height as his father, and inherits even his sire's deafness, being quite hard of hearing in his left ear, though he is not nearly so deaf as the elder Edison.

Young Edison, heretofore almost unheard of, has suddenly sprung into prominence in a business way by his production of a wonderfully improved incandescent lamp, the quality of which, experts have announced, far exceeds that of any other lamp ever made.—New York World.

Geometrical.

"I seem to have a very unfortunate manner of saying things," remarked Willie Wishington."

"What has happened now?" inquired his friend.

"I remarked to Miss Cayenne that there was one point upon which I had made up my mind."

"And was she interested?"

"Not greatly. She said she thought that a point was quite large enough for the purpose."—Washington Star.

Wanted a Bottle of X-Ray.

An amusing story is told in Wilson's Photographic Magazine of the misapprehension of "a well-dressed, sensible-looking woman" who had strolled into Roosevelt Hospital not long ago and asked if they had any "X rays." "I've read a lot about them," she said before the astonished attendant could reply, "and how much good they are, so I just thought I'd like to try them. I haven't been well for some time now, and I've tried most everything else. Can you let me have a bottle of X rays?"

The Wretched Middle Class.

Doctor—You ought to take that child into the country for several weeks every summer.

Mother—Oh, doctor, I'm sorry to say we are not rich enough.

Doctor—Well, then, have her sent by a Fresh Air Fund.

Mother—But, doctor, we're not poor enough!—Fliegende Blatter.

What She Feared.

Mamma—Are you afraid of the dark, Bessie?

Bessie—No, mamma, I ain't fwaid of the dark, but I'm awfully fwaid of the fings 'at's in the dark 'at you tan't see.—New York Journal.

Miss Youngly—So you've only know him a month? Don't you think you're taking a great many chances in marrying him?

Miss Oldwaite (candidly)—Dear me, so. It's the only chance I've had in ten years.—Judge.

"ASLEEP!"

Nothing so appeals to a mother's heart as the sight of her baby asleep. This is doubly true when the white lips, the fevered brow, the blue lines beneath the eyes and the thin little hands tell the pathetic story that baby is ill. To the child that comes into the world robust and healthy, the ordinary ills of childhood are not a serious menace; but to the weak, puny baby with the seeds of disease implanted in its little body even before birth, they are a serious matter and frequently mean baby's death.

The woman who wants a strong, healthy baby must see to it that she does not suffer from weakness and disease of the important and delicate organs concerned in motherhood. Dr. Pierce's Favorite Prescription acts directly on these organs, allaying inflammation, healing ulceration and soothing pain. It fits a woman for wifehood and motherhood. It banishes the discomforts of the period of anticipation and makes baby's entry to the world easy and almost painless. It insures the newcomer's health and an ample supply of nourishment. It rids maternity of its perils. It has caused many a childless home to ring with the happy laughter of healthy children. Over 90,000 women have testified to its marvelous merits. It is the discovery of an eminent and skilful specialist, Dr. R. V. Pierce, for thirty years chief consulting Physician to the great Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. All medicine dealers sell it. Ailing women who write to Dr. Pierce will receive free his best advice.

Scores of women who have been cured of obstinate and dangerous diseases by Dr. Pierce's medicines have told their experiences in Dr. Pierce's Common Sense Medical Adviser. It contains 1008 pages, over 300 engravings and colored plates, and is free. Send 21 one-cent stamps, *to cover cost of mailing only*, for paper-covered copy; cloth binding 31 stamps. Address Dr. R. ENFORCED THE RULE.

Card Playing on Sunday Postively Prohibited in Pullman Cars.

Among the ironclad sleeping car rules long ago adopted, and strictly adhered to, by the late George M. Pullman, was the absolute prohibition of card playing of any kind in his cars on the Sabbath day. Mr. Pullman took the ground, from the very start, that it would be an insult to a large portion of the intelligent traveling public, which does not indulge in or indorse card playing on Sunday, to permit the few who draw no such lines to play on his cars in the presence of the many who would not sanction it on that day. All his sleeping car conductors, porters and other employes were given positive instructions to prohibit such pastime on Sunday, from morning until midnight. And as far as known the rule was always strictly lived up to. Another positive rule of Mr. Pullman was one refusing admittance to a Pullman car of any person known to be under the influence of intoxicating liquor when about to board a car. A case of this kind was thoroughly tested some years ago on a road in Iowa. A prominent official of another road had been on a pleasure trip and was returning home. He had been with some congenial companions and was the worse for the night's outing. He desired to take a midnight train for home and several of his friends escorted him to the train and proceeded with the official to the sleeper. The porter promptly met the party at the door with "that gentleman can't come in this car." In vain was it pointed out that he was an official and his Pullman pass was exhibited, but all to no avail. "Makes no difference, gentlemen, if it was Mr. Pullman himself—no intoxicated man can occupy this car. It is against the rules." And the intoxicated official sat up all night in a day coach.—Milwaukee Evening Wisconsin.

STRANGEST OF ALL MARRIAGE LAWS.

The Argentine Republic has passed a remarkable law to encourage marriage. It inflicts a fine upon any person of marriageable age who rejects a proposal. Here is the statute:

"Persons of marriageable age of either sex who refuse an offer to wed without reasons which are considered valid in law shall not be permitted to marry thereafter without the permission of the Government. They shall, moreover, pay an indemnity sum of not more than $500 to the person whose offer they have refused."

Young men and women under twenty years of age are exempt from the law and can marry as they please. After they are twenty-eight the men are obliged to pay a heavy tax if they remain single.

In Argentina women propose as well as men; so an unmarried young man between twenty and twenty-eight years old in that country has a troublesome time. Not only is he made to pay a tax for being a bachelor, but if he refuses a proposal he has to pay the proposer a fine.

Manna Newly Found.

True manna has been found on a blue grass in Queensland. It appears on the nodes of the stems in masses as large as marbles. It is sweet, and nearly three parts of it consist of mannite, which, though sweet, is not a sugar. It also contains a ferment which has the power to decompose cane sugar without evolving carbonic acid or any kind of gas. The grass is not only indigenous in Australia, but it is found also in tropical Asia and Africa.

It is related of Fanny Kemble that she carried the tragic air of the stage into everyday affairs. While in Boston she stopped at the Tremont House, and was accustomed to dine in her rooms at five o'clock. On one occasion the waiter brought her dinner ten minutes too soon, and she made him take it away until the hour had struck. On another occasion she gave the servant some clothes for the laundry.

And Riley's Right.

Some time ago, when James Whitcomb Riley was giving readings in southern cities, he addressed these lines, on a postal card, to a friend in Atlanta:

"Ain't a-goin' to worry any more;
Ain't a-goin' to fuss and fret about it;
We'll git what's a-coming to us shore,
Or, thank God, we'll git along without it."

That was all—except his signature; and the friend never knew just why he wrote it, but it was fine philosophy and he laid it to his heart and went whistling along.—Atlanta Constitution.

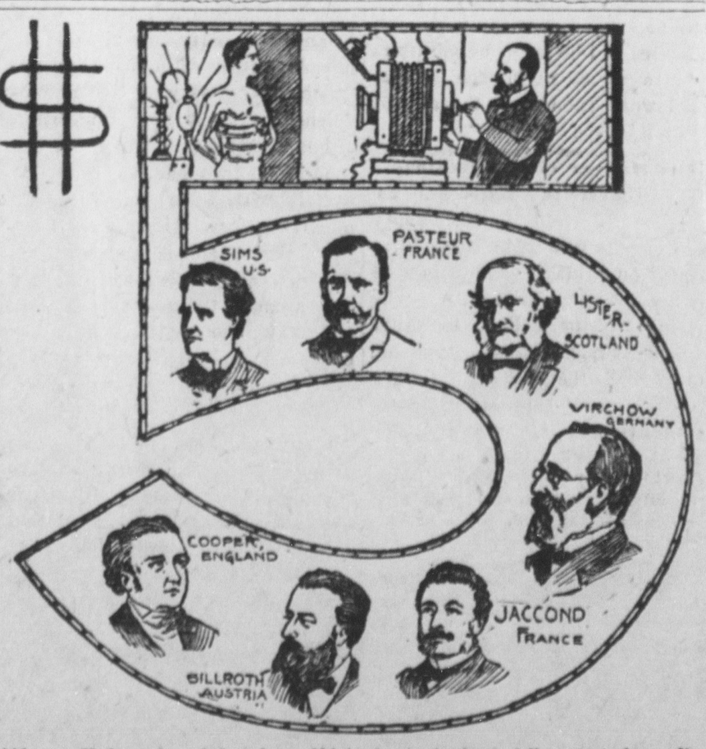
FELL DEAD AT HER FEET

A Young Man Who Mistakenly Believed He Had Heart Disease.

He Simply Scared Himself to Death, for His Heart Was Sound.—What a Pity He Did Not Take Proper Advice!



A dramatic story is told of a young man in Chicago who believed he had heart disease. He abstained from exercise and he avoided excitement. He dosed himself persistently and imagined that only by leading an invalid's life could he hope to keep death at arm's length. One day he suddenly met a woman who had been associated with a discreditable chapter in his history.

"My God! my heart!" cried the young man, and he fell at her feet stone dead.

An autopsy showed that his heart was absolutely sound. It was the opinion of the physicians that he might have lived to a ripe old age if he had taken the precaution to consult a competent specialist.

The time when a physician was laughed at for devoting himself to one branch of his profession is past. So broad is the field of medical knowledge that no one man can hope to cultivate it all. The seven great men whose portraits accompany this article have earned the undying gratitude of the world by their work as specialists.

Notice that the frame of the pictures is a "5" preceded by a dollar mark. Five dollars is a great or a small sum, according to circumstances. One thing is certain: a five-dollar bill never looks quite so small as when it is considered as the price of a complete diagnosis and full treatment by medical specialists of the highest rank.

Do you think the thing is impossible?

The Warner Nazaro Medicine Co., of New York City, has made it possible. At the head of the company is Mr. H. H. Warner, who made himself famous several years ago by the perfection of a remedy for diseases of the kidneys. He has enlarged the sphere of his usefulness by organizing a staff of specialists, whose services are placed within the reach of a vast public who otherwise would have no means of getting the best special treatment America affords. This superb body of physicians includes authorities on diseases of the blood and the nerves; of the heart, liver and kidneys; of the stomach and bowels. There are specialists in those dreadful maladies that make women wretched, as well as in the obscure and obstinate ailments of men.

To have the advantage of the Warner Nazaro Medicine Company's remarkable enterprise, send a frank, full account of your disease to the company's offices, 220 Broadway, New York. One of the symptoms blanks prepared by the Board of Physicians will be mailed you free on application. This will enable you to give a complete history of your affliction. In return, you will get a diagnosis by a learned physician who has made your particular disease the study of his life, and medicine for a month's treatment, should so long a time be necessary for a cure. Please bear in mind that this medicine will be especially prescribed for you. Write today for the symptoms blank.

BUTCHER WEYLER!

The Former Captain General of Cuba Now in Madrid

THEY SAY THEY WILL PRIVITEER

Has Applied for Letter of Marque and the Possibility Is that She Will Prey on our Coastwise Commerce

LONDON EXITED OVER THE WAR TALK.

LONDON, April 14.—There is great interest here in government and commercial circles over the possibility of privateering in the event of war between the United States and Spain. Such applications for letters of marque have been made at the Spanish embassy and at the office of the Spanish navy commission; but, there were no applications at the United States embassy. It is generally recognized that Spain intends to make privateering a conspicuous element of the campaign. It is thought, however, that she will confine her energies in this direction to preying upon American coastwise commerce. It is not believed she will risk offending the European powers by stopping their American bound vessels, or by searching trans-Atlantic ships for American goods, for if European ships are molested the powers will probably adopt radical preventive measures. The prevalent opinion that the United States will not embark in privateering produces an excellent impression.

At the admiralty here it is suggested that the Spanish naval scheme will be not to pit a fleet against the American warships, but to scatter Spain's war vessels about the coasts and indulge in guerrilla warfare, swooping down upon coast towns and retreating before they are overtaken. It is deemed certain that this will be Spain's policy if she abandons the hope of retaining Cuba and pursues a war of revenge. Many merchant vessels are being offered at the United States embassies on the continent, but no negotiations are pending, and it is said at the embassy here that the United States goverment has no need for any more ships.

MADRID, April 14.—General Weyler, the former Captain General of Cuba, arrived in Madrid today, apparently being called here by the government. He was met at the railroad station by General Pratt, in full uniform, and many friends, military men and civilians. The governor of Madrid prohibited the demonstrations which it was proposed to make, and adopted precautionary measures. There was a detachment of police at the station; there were policemen in the streets through which the general passed and police officers were stationed even within the entrance to the general's residence. From the railroad station the former Captain General was driven rapidly to his home in a carriage, accompanied by Senor Mesamena, a member of the chamber of deputies. When questioned on the subject, General Weyler refused to say he was called to Madrid by the government, but he added, speaking to the correspondent of the Associated Press:

"I have indeed offered my service to the queen. I consider war with America inevitable, or Cuba is to stay to Spain. I believe war is preferable to a continuation of the prolonged tension between Washington and Madrid."

WASHINGTON, April 14.—It was learned to-night in high diplomatic circles that an exchange of notes had begun between the European capitals with a view of making strong representations on the Spanish-American situation. In the same connection an informal meeting of the ambassadors and ministers in the city of the six great powers of Europe was held late in the day. Several of the foreign establishment received cable advices from their governments to-night as to the opening of the exchange notes. This had been anticipated in view of the prevailing sentiment in all the foreign quarters here, that the action thus far taken in congress made war inevitable. This common opinion had been officially reported to the several European capitals and it was doubtless instrumental in starting the active exchange between the great powers to-day. The same exchange occurred a week ago as a preliminary to the joint note of the great powers presented to President McKinley, mildly urging a peaceful settlement with Spain.

It is understood, however, that the present movement is not of the same mild character as the former one. Simultaneous with the opening of the exchange, word came from Madrid that the Spanish government was about to issue an appeal to the great powers of Europe. It is understood that this appeal is an initiatory to the concentrated action of the powers and there is apparent agreement in advance that the appeal will receive favorable consideration.

There is no suggestion, however, that this influence at present will be of a material character, but it is expected to be an assertion of all the moral influence of the powers in checking tendencies which, it is believed, inevitably will lead to war. Up to a late hour to-night word had not been received at any of the various foreign establishments that any common basis of joint action had been reached although it was the general impression that there would be little difficulty in arriving at this common ground, in view of the prevailing sentiment abroad. It is not so certain, however, that all of the powers are ready for a step of this character. Germany has of late shown a disposition to avoid exerting strong influences on the United States. Russia is also thought to be somewhat indifferent. France and Austria are most active in the former one. Whether all the six great powers are ready to join in the movement is in doubt, and without this united action it is felt that the force of such influence would be lost.

The Spanish minister had not been officially advised up to a late hour to-night that the meeting of the Spanish cortes had been advanced from April 25 to April 30. The press cables from Madrid were not doubted, however, as it was thought to be quite probable that the present grave condition of affairs would lead to the assembling of the cortes at the earliest possible date. There is no doubt that the cortes will prepare a war budget adequate to the existing condition of affairs which budget will be akin to the $50,000,000 defense fund recently appropriated by congress. It is understood that the Spanish war budget is not likely to be less than 250,000,000 pesetas.

American Securities Abroad.

The sales of American securities have been, according to London advices, very large abroad of late and there appears to be a tendency toward increase in the sales. If this state of things holds, there will be an increasing influx of British gold into this market. This is good news and demonstrates the faith abroad in the stability of our credit. There is another point of faith for which the people not only of this but foreign countries have good grounds for credence, and that is, belief in the efficacy of Hostetter's Stomach Bitters for inorganic maladies which effect the stomach, liver, bowels, kidneys and nerves. Dyspepsia, biliousness, constipation, rheumatism and a tendency to insomnia, are counteracted and conquered by it. It rallies failing appetite, hastens convalescence, and diffuses a warmth and sensation of physical comfort through the system. A wineglassful before retiring promotes health-yielding slumber.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It will relieve the poor little sufferer immediately. Sold by all druggists in all parts of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Pine Grove Academy Re-union.

At the meeting of the Pine Grove Academy association last June it was determined to have a reunion this year, and the following persons were appointed a committee to arrange for it: Captain W. H. Fry and A. G. Archey Esq., of Pine Grove; J. K. Bottorf, J. H. Miller and A. J. Mattern, of Tyrone; Hon. D. L. Krebs, of Clearfield; Gen James A. Beaver, of Bellefonte; Miss Kate L. Moser, of Altoona, and Miss Sue Dannley, of Pine Grove. A meeting of the committee was held at the Ward House in Tyrone Saturday afternoon with most of the members present. It was decided to hold the reunion at Pine Grove on the 16th or 17th of June. The actual date will be fixed at a later meeting. Committees were appointed to make all arrangements for the reunion, and everything will be in good shape when the time comes for making it a big success.

Laid to Rest in Mother Earth.

Sad indeed it was for the friends who attended the funeral of little Stanley Brachbil. last Friday afternoon Although it was disagreeable to be out it had no effect on the people, as several hundred followed the little body to the grave.

Rev. W. A. Stephen D. D., conducted the services and in his discourse he spoke words of comfort and cheer. He based his eloquent talk on, "In my Fathers house are many mansions if it were not so I would have told you, I go to prepare a place for you and if I go and prepare a place for you I will come again and receive you unto myself."

The Methodist choir was present and rendered beautiful music, which was touching and impressive. The pall bearers were the following young men Messrs. William Smith, Frank Derstine, George Miller, Harry Weaver. Ten of his little playmates walked in front of the casket, and many more of his schoolmates followed in the rear.

—The Huntingdon presbytery was in session in Altoona on Tuesday and Wednesday. Among the business transacted was the receiving of Revs. Thomas. Holloway and Haugawaut from the New Jersey, Minneapolis and Washington presbyteries: the appointment of a committee to organize a church at Coaldale, if possible. and the petitioning of the Synod to transfer a portion of the Carlisle presbytery into the Huntingdon. Dr. William Laurie was made a member of the committee to examine and report upon Dr. A. McGiffert's book,

A Physician's Tribute
To the Benefits Received From Dr. Miles' NEW HEART CURE.

HEART DISEASE is curable. It is not surprising that all cases are not cured, since no physician has made the heart a special study for a quarter of a century as Dr. Miles has done. The following tribute from a physician will be read with interest. "For six years prior to taking Dr. Miles' New Heart Cure my wife was a terrible sufferer from heart disease. She had a constant fluttering of the heart and severe palpitation and pain in the left side. She took three bottles of Dr. Miles' New Heart Cure and was completely restored to health, and has not taken a drop of medicine during the past two years. Under these circumstances I cannot do otherwise than recommend it to others."

Huston Twp.

Scrofulous Humor

Blood in Terrible Condition and All Run Down in Health—Has Become Strong and Healthy.

"I was all run down, blood in terrible condition and I was troubled with a severe scrofulous humor which caused me great suffering. I took medicine for a long time, but received no permanent benefit. At this time I was working in a general store, and I thought I would look over the medicines and see if I could find something that would hit my case. I read an advertisement of Hood's Sarsaparilla and concluded to try it. The first bottle helped me wonderfully and I continued its use until I had taken nine bottles. By this time I felt like a new man, and since then have not been sick a day. I am now strong and healthy and I have such confidence in Hood's Sarsaparilla that I recommend it as the best medicine on earth." JOHN J. LITTLE, Munnsville, N. Y.

Delegate to State Convention.

The friends of John M. Dale, Esq. are urging him to be a candidate for delegate to State Convention, subject to the approval of the Republican county convention, and we understand that Mr. Dale has consented to serve his friends in this capacity. The convention could not do better than to send him as their representative. He is an old time Republican, always true to the best interest of the party and will serve them to the complete satisfaction of everyone.

Now that the country is face to face with a war proposition, it must be gratifying to the average citizen to know that its financial condition is highly satisfactory and to contrast it with "what might have been" had the free silver proposition carried in 1896 and the country been placed upon a silver basis. The money in circulation in the United States today is more than at any time in its entire history, the April Treasury statement showing the total to be $1,756,058,645, while the gold in circulation is also greater than in any previous report. being $582,129,742. And all this in the face of the assertion made by the Chicago Convention twenty-one months ago that the money of the country could not materially increase without free coinage of silver. In these twenty-one months the increase in money in circulation has been over $246,000,000. while the increase in gold alone has been over $125,000,000.

—The famous "Lost Speech" of Abraham Lincoln, which was published in McClure's Magazine a few years ago, has now been added to Professor Bliss Perry's volume devoted to Lincoln in the "Little Masterpieces" series. This is the first time that this famous speach has been available outside of the back number of McClure's Magazine. Professor Perry has had remarkable success in editing these "Little Masterpieces"; the Lincoln volume devoted to the best writing of Benjamin Franklin are models of inspiring reading for young men who are earnest in their endeavor to make a success of life.

American manufactures continue to gain standing in the estimation of the world and with this gain comes a steady increase in the foreign demand for them This is illustrated by the presence in the United States of Hermann J. Olsen, a distinguished manufacturer of Norway, who is here to purchase supplies for his plant in his own country. He said commenting upon his visit: "The United States now produce tools superior to those of either Germany or England, and while we have to pay higher prices for your productions it is the cheapest way in the end. I expect to purchase in this country a large quantity of supplies for my own plant."

Silk is following tin plate in its tribute to protective system. Silk manufactures in the United States are now producing as fine a quality of silk as are made in any part of the world, and are selling them at lower prices than was formerly charged for the imported goods, while the number of silk factories in the country is rapidly increasing. the importation of silk goods during the first half year of the Dingley law show a decrease of over 30 per cent compared with the corresponding months of last year under the Wilson law while the imports of raw silk for use in our factories increased over 80 per cent.

Medical men and State Boards of health are considering with grave anxiety the menace to the public health which would be one of the results of a war with Spain, since the presence of our troops in Cuba and the rapid intercommunication which would be necessary would make it almost impossible to prevent the introduction of that disease into the United States during the summer months.

—The Lock Haven Democrat says that the democrats in congress have shown a noble love for their country under the strained relations between Spain and the United States. It is the first time since 1860, 38 years ago that that party has shown any anxiety for the permanent welfare of their conutry. The union loving people may congratulate them upon coming into the union even at this late day.

—Little Nellie was in the kitchen one day and seeing some large insects crawling around she asked what they were and was told they were ants. The next morning she was playing in the yard and seeing a lot of very small ants crawling over the ground she ran to her mother and exclaimed: "Oh, mamma, there's a whole lot of little nephews and nieces out in the yard coming to visit their aunts in the kitchen."

—A pension has been granted to Mrs. Sarah Weight, widow of the late Adam Weight, of $8, per month with back pay.

The export trade of United States and Germany under the protective system goes steadily on, while England and France are complaining of a falling off in their export trade of the reduction of the exports. The English newspapers have been complaining of the reduction of the export trade of that country, and now comes word that the French exports were. in 1896, forty million francs less than were fifteen years earlier. These conditions are in marked contrast with those of the United States. in which the exports are steadily increasing, those for the eight months of the present fiscal year being sixty million dollars greater than in the corresponding months of the preceding year.

—April showers are numerous.

Forgot the Collar.

At Milton two interesting young ladies, in the absence of a man, hitched up a horse to a buggy, and forgot to put a collar on the horse, but merely buckled the harness around the neck of the animal, and thus drove to Coburn to meet a lady friend coming from a distance. The attention was called to the matter by one of the horrid men at Coburn. The avoirdupois not being so great the poor horse did not suffer much inconvenience.

Summary of Cuban News.

The President signed the Cuban resolution and the ultimatum to Spain Tuesday. It is asserted that the President will give Spain a few days to withdraw the troops from Cuba.

Practically the entire army started for the mobilization in the South last Tuesday.

The Pope ceases his efforts for peace.

Cuban insurgents, according to the Junta, are greatly pleased with the action of the United States Congress.

Last Tuesday little business was transacted by the Senate. The Democrats tried to explain their position on the war measure.

The new Army Bill, it is asserted, calls for 80,000 Volunteers and the State Guards will be given preference.

St. Paul, the magnificent ocean liner, now at Cramps' shipyard Philadelphia, was transferred to the Government, Tuesday.

Premier Sagasta made a speech which is interpeted as very warlike.

The Spanish fleet is now mobilized at Cape Verde, two big cruisers arriving Tuesday.

SIXTEEN YEARS.

His Wife Has been a Chronic Invalid--Cured at Last.

Mr. J. T. Scott, Cherokee, Texas in writing Dr. Hartman, stated: "I had kidney disease for about fifteen years and had got so bad that I could hardly get about and could not perform any kind of labor. I had tried quite a number of doctors and had taken nearly a wagon-load of patent and proprietary medicines, but continued to gradually grow worse. Also my wife had been an invalid for about sixteen years, and you doubtle s remember when I wrote you about her, there was hardly ever a day that she could sit up all day. We tried a great many remedies, but neither of us was ever benefited, only tempo rarily, till we began taking your Pe runa and Man a lin, as instructed in your letters to us. It has made a healthy man of me; I never felt bet ter in my life and my wife is almost like a different person, she is so much better. The Pe ru na is the most wonderful medi cine I ever saw for la grippe it is a sure cure. I know this and have had my neighbor to try it."

Hundreds of similar testimonials may be found in a little book entitled "Facts and Faces," which will be sent free to any address by The Pe-ru-na Drug Manufacturing Company Columbus. Ohio.

—Lockhart's comedy elephants are presented as a special feature of the famous Ringling Bros. this season, and though they are a complete exhibition in themselves, they are presented in conjunction with the regular arenic performance without extra charge.

No Luck in Horseshoes.

The Hardware has the following: There is a truck driver on Greenwich street, this city, who stands ready to demolish any man who attempts to persuade him that horseshoes are lucky. He started up street the other day with a car load of discarded horseshoes, which he was to deliver to a junk shop in the neighborhood. He was hardly under way when the tailboard fell out of his wagon, and about a bushel of the shoes were scattered about the pavement, and, in picking these up, one of them fell upon his foot and injured it so badly that he limped for a week. While he was reloading a rapidly moving car came down the street, and struck the rim of his wheel, demolishing two spokes, and he had hardly unloaded and started for home when his horse took fright and ran away, demolishing the wagon and nearly killing the driver, by throwing him against a pillar of the elevated railroad. On reaching home he found three of his children sick with the measles.

That there is profit in properly caring for hens has been demonstrated by Richard Bowen, of North Spangler, Cambria county. He has a fine lot of forty-nine hens, which during the month of March yielded sixty-nine dozen of eggs. The value of the eggs, averaging them at fifteen cents a dozen, was $10.35. The cost of maintaining the chickens for the month was $2, leaving a net profit of $8.35. On the 1st of March a fine brood of eleven young chicks were hatched.

HARD TO COMBAT.

The Evidence of Our Senses—What Bellefonte People Say is Pretty Good Proof for Bellefonte Citizens.

When we use it ourselves.
When our own ears hear it.
When our neighbor tell it.
Our friend endorse it.
No better evidence can be had.
It's not what people say in Maine.
Or distant mutterings from California.
No deceiving echoes here.
Bellefonte talk about Bellefonte people.
Public opinion published for the public good.
There is no proof like home proof.
Home testimony at the back of every box of
Doan's Kidney Pills.
Can you believe your neighbors?
Read this statement made by a citizen:—

Mrs. J. Cowher, of Bishop street says: "Last spring and summer, 1897, I was very bad with my back and head. I suffered pain in both and was very restless nights besides being so tired all the time that I could hardly drag myself about. I was very lame across my kidneys and bending over or being on my feet much was extremely painful. Reading about Doan's Kidney Pills and seeing them so highly recommended for these troubles I procured them from F. Potts Green's Drug store. They gave me positive relief, caused me to sleep well, stopped the pains, removed the lameness, and invigorated me generally. I recommend Doan' Kidney Pills to my acquaintances whenever opportunity occurs for my own experience with them warrants it."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no substitute.

The Devil's Disciples.

The worst man in any community is doubtless the libertine who ever lies in wait for innocents, but the male or female gossip who invents and circulates the most outrageous falsehoods concerning others—falsehoods affecting reputation—is a close second. A young girl's reputation is at the mercy of any scoundrel who chooses to whisper it away. Her character is safe enough, but character, while a source of strength and comfort, is not always available in the struggle for existence when the slanderer is at work. There have been instances in which a lie, deliberately invented by a creature in human form, has ruined an innocent girl, and others in which a similar falsehood has broken up the happiness of a family. The person who whispers evil things about the innocent should not be tolerated by good people. They are demons and they do the devil's work.—The commonwealth.

His Idea of Eternity.

Here is a schoolboy's definition of eternity: "When our ships all come in; when the sea gives up her dead; When Father Time hangs up his scythe, When the heavens are rolled up like a scroll; When Gabriel blows the ram's horn; When the solar system collapses; When we find the lost Charley Ross and the man who struck Bill Patterson, When Johnny gets his gun When society becomes pure and after the ball is over—then will be eternity."

—Mr. John Hewes of Walker was transacting business in Bellefonte on Thursday. Mr. Hewes is quite an advocate of the Cuban Independence and armed intervention.

CASTORIA

for Infants and Children.

THIRTY years' observation of Castoria with the patronage of millions of persons, permits us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and practically perfect as a child's medicine.

Castoria destroys Worms.
Castoria allays Feverishness.
Castoria prevents vomiting Sour Curd.
Castoria cures Diarrhœa and Wind Colic.
Castoria relieves Teething Troubles.
Castoria cures Constipation and Flatulency.

Castoria neutralizes the effects of carbonic acid gas or poisonous air.
Castoria does not contain morphine, opium, or any other narcotic.
Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep.
Castoria is put up in one-size bottles only. It is not sold in bulk.
Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose."

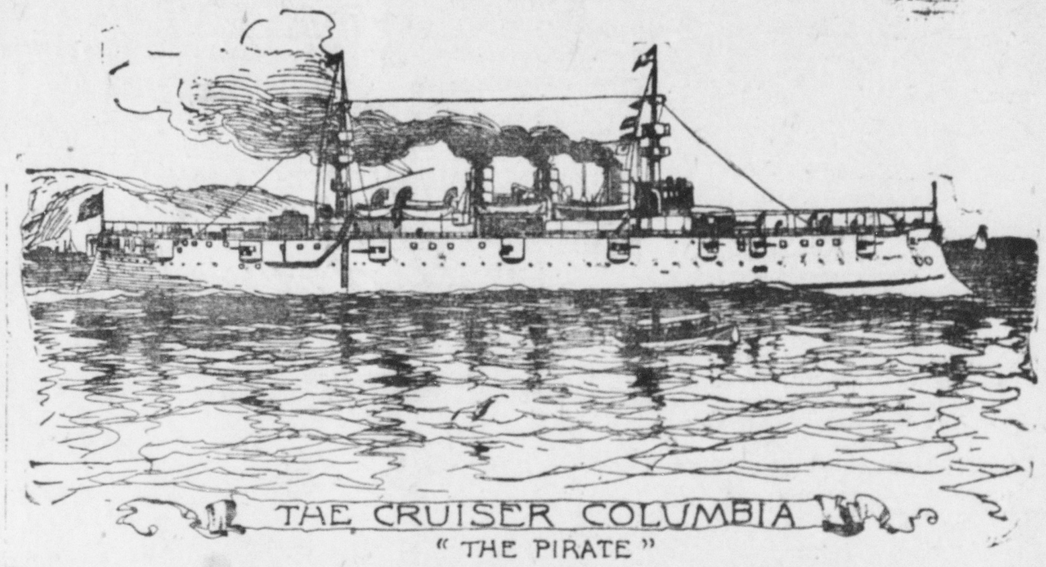
THE U.S. DYNAMITE CRUISER VESUVIUS.



THE CRUISER COLUMBIA
"THE PIRATE"

A WARLIKE STEP!

Regular Army Regiments Will Be Concentrated.

TROOPS TO BE ACCLIMATED

They May Be So Distributed at Convenient Places That They Can Be Expeditiously Transported to Cuba.

RAILROAD FACILITIES ARE AMPLE

WASHINGTON, April 15.—Decidedly the most warlike step taken by the war department in preparing for the possibility of an encounter with Spain was inaugurated to day when orders were issued for the concentration at four points in the south of six regiments of cavalry, twenty-two regiments of infantry, and the light batteries of five regiments of artillery. At Chickamauga there will be six regiments of cavalry and the light batteries of five regiments of artillery; at New Orleans, eight regiments of infantry; at Tampa, seven regiments of infantry.

Since the civil war no such portion of the army has been mobilized and the movement itself is the best evidence of the gravity of the situation as looked upon by the president and his advisers. The determination to rendezvous the troops in the south where they can be acclimated to the conditions of a more tropical climate has been under consideration by the president and his cabinet for some time. It was not until to-day, however, that the president, in view of the enormous expense which will be entailed, felt justified in taking this step.

When Secretary Alger returned from the cabinet meeting he at once called into conference General Miles and Adjutant General Corbin, and acquainted them with the result of the cabinet's deliberations. There were hurried consultations in which the quartermaster general, who has charge of the transportation of the troops, the commissary general, who looks after their subsistence, and representatives in Washington of various railroads running to the south participated. The department has so distributed the twenty-two regiments of infantry at convenient places on the Gulf that they will be accessible for transportation to Cuba. Proposals have been invited from steamship companies for chartering vessels to the government for this work.

Instructions to the commanding officers of the regiments ordered to move were sent out late to day with directions that they be put into effect as soon as possible. It is the confident expectation of the officials that the movements in some places will begin to-morrow. The railroad facilities, the officials say, are more than ample to meet the demands of the occasion and no trouble will be experienced in mobilizing this large body of men at the places designated within a reasonably short space of time. The officers who will command will be General Shafter at New Orleans, General Coppinger at Mobile, General Wade at Tampa and General Brooke at Chickamanga.

Saved from the Surgeon's Knife

No organs are of greater importance to the human body than the Kidneys. Their duty is to sift and strain the poisonous and waste matter from the blood, and if they fail to do this, the trouble shows in the nervous system, and even in the brain. Your life is at stake when there are pains in the small of your back—when you are compelled to get up at night to urinate—when the passing of water causes scalding pain—when there is a sediment in the urine in the vessel, or when it appears white or milky. When so afflicted, you can conquer the trouble with ***Dr. David Kennedy's Favorite Remedy,*** the greatest medicine that civilization has ever known for curing Kidney, Bladder, Blood and Liver Diseases.

James Lettice, of Canajoharie, N. Y., tells of his wonderful cure: "Some years ago I was attacked with pains in my back and sides that were fearful. I could not control my kidneys, and what came from me was filled with mucus and blood. An Albany doctor was to perform an operation upon me, and said my home doctor could take care of me after. I saw an advertisement of ***Dr. David Kennedy's Favorite Remedy,*** which seemed to fit my case, so I decided to try that before I submitted to the operation. I began its use. When I had taken about two bottles the flow from the bladder grew cleaner, and the pain stopped, and in a short time I was saved from the surgeon's knife, and am now well."

Favorite Remedy also cures Eczema, Scrofula, Rheumatism, Dyspepsia and Constipation. For Female Troubles it is unequaled. It is sold for $1.00 a bottle at all drug stores.

Sample Bottle Free! In order that sufferers may be convinced of the curative virtues of *Favorite Remedy,* a free sample bottle will be sent, prepaid, to those who send their full postoffice address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Y. It is necessary to say that you saw the advertisement in this paper if you wish to take advantage of this genuine and liberal offer. Send today.

RECEIVED MEDALS OF HONOR.

Three of Company B's Men Receive Gold and Silver Medals.

On Friday evening after the regular drill, Captain Hugh S. Taylor, presented to 1st Sargeant Philip Garbrick a handsome solid gold medal with the words "Veteran marksman" beautifully engraved upon it. For this gold medal he has proven himself for ten years to be a good, true, faithful soldier in Co. B. of the 5th N. G. P.

Mr. Garbrick enlisted in this company over ten years ago as a private, and with his good merits he has ascended the ladder of honor to 1s Sargeant of a company that stands at the head of the National Guards of Pennslvania. Sargeant Garbrick also has the honor of standing at the head of the 5th regiment in the brigade rifle team. He being selected as one of the eight from five hundred soldiers.

Captain Taylor also presented to 3rd Sargeant Charles Garis of Pleasant Gap, and 4th Sargeant Samuel S. Taylor of Bellefonte, a handsome solid silver medal, with the letters "N. G. P." beautifully engraved upon them. For these medals the company has experienced for over five years the good fellowship of two of the finest young men in Centre County, and these were given to them as a token of rememberance of their excellent qualities as a soldier.

To these three young men we extend our heartiest congratulations, and to Captain Taylor who has these three, and many others such as they are under his command.

Housekeeping.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world. But how different when every breath is pain, every step torture! This state of health, in nine cases out of ten comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Except in very unusual cases of "female weakness" examinations are unnecessary. Dr. Pierces Favorite Prescription is a simple, natural remedy for these ills. It cures safely, permanently.

A Good Dictionary For TwO Cents.

A dictionary containing the definitions of 10,000 of the most useful and important words in the English language, is published by the Dr. William's Medicine Company, Schenectady, N. Y. While it contains some advertising, it is a complete Dictionary concise and correct.

In compiling this book care has been taken to omit more of those common words, whose spelling or exact use occasion at times a mommentary difficulty even to well educated people. The main aim has been to give as much useful information as possible in a limited space. With this in view where noun, adjective and verb are all obvirously connected in meaning, usually one only has been inserted.

The volume will thus be found to contain the meaning of very many more words than it professes to explain.

To those who already have a Dictionary this book will commend its self because it is compact, light and convenient; To those who have no Dictionary whatever, it will be invaluable. One may be secured by writing to the above concern, mentioning this paper and enclosing a two cent stamp.

Dauchy & Co's Newspaper Catalogue.

We are in receipt of the 1898 issue of Dauchy & Company's Newspaper Catalogue. This work is issued annually and has become so familiar to advertisers, newspaper publishers and others who are interested in the periodical publications of the country that it hardly needs extended notice from us. It is no faint praise to say that this edition is fully up to those of previous years. The book is a large volume of 723 pages, well bound in cloth, printed from large and clear type, and on heavy paper. The statistics are very conveniently arranged, and the peculiar feature of a ruled space for memoranda against each paper makes this catalogue propably the most useful one published. Advertisers and others who have occasion to use a newspaper directory regularly, know how necessary it is to make memoranda as to contracts, changes, etc., against the names of the papers, and this is the only work in which a space is provided for this purpose. This Newspaper Catalogue is a credit to its publishers, Messrs. Dauchy & Co., 27 Park Place, New York, from whom it can be obtained or from book-sellers.

CERTAINLY A GRAND SUCCESS.

The Organ Recital which Was Given in the Presbyterian Church.

Thursday evening witnessed one of the most sociable and musical events ever held in Bellefonte. It was in the way of an organ recital.

For the last three months, Mrs. Robert G. H. Hayes and her ten aids have been working very zealously to give this grand entertainment and we are glad to say this effort which they put forth was crowned with wonderful success.

The large stone edifice was beautifully decorated with tall green palms ferns and choice cut flowers, and Easter lilies' which presented a lovely sight. Long before the time which was set for the entertainment to begin, the church was crowded to the doors regardless of the inclemency of the weather, which no doubt prevented many from attending

But those that did face the storm were greatly repaid for doing so, for never before in the history of the church has there been an entertainment given to surpass this one.

After the recital Mrs. Hayes pleasantly entertained the persons who were so kind to come and help her in this musical. We are glad to make the announcement that it was also a grand financial success, as well as in other ways. We were told by Mrs Hayes this morning that they had cleared over $100.

She can certainly fell very much delighted as all the responsibility and the success of the concert rested upon her.

BLOOD POISONING.

A Nurse's Experience.

There are thousands of people suffering from blood poisoning who have almost beggared themselves in buying medicines from which they have obtained no help. There are thousands of others who first or last have tried Dr. Ayer's Sarsaparilla and found perfect healing. One of these others, Mrs. A. F. Taylor, of Englevale, N. Dak. relates the following experience:

"About two years ago, I nursed a lady who was suffering (and finally died) from blood poisoning. I must have contracted the disease from her; for shortly after her death, I had four large sores or ulcers, break out on my person. I doctored for a long time, both by external application and with various blood medicines; but, in spite of all that I could do, the sores would not heal. They were obstinate, very painful, annoying, and only getting worse all the time. At last, I purchased six bottles of Dr. Ayer's Sarsaparilla, thinking I would give it a thorough trial. Before the first bottle was taken, I noticed a decided improvement in my general health; my appetite was quickened, and I felt better and stronger than I had for some time. While using the second bottle, I noticed that the sores had begun to look healthier and to heal. Before the six bottles had been taken, the ulcers were healed, the skin sound and natural, and my health better than it had been for years. I have been well ever since. I had rather have one bottle of Dr. Ayer's Sarsaparilla than three of any other kind."

This is but one example of the remedial value of Dr. Ayer's Sarsaparilla in all forms of blood disease. There is no other blood medicine that cures so promptly, so surely and so thoroughly. After nearly half a century of test and trial it is the standard medicine of the world for all diseases of the blood. Sores, ulcers, boils, tetter, rheumatism, scrofula and every other blood disease is curable by Dr. Ayer's Sarsaparilla. The success of this remedy has caused many imitations to be put on the market. Imitation remedies work imitation cures. The universal testimony is that "one bottle of Dr. Ayer's Sarsaparilla is worth three of any other kind." If you are interested in knowing more about this remedy, get Dr. Ayer's Curebook, a story of cures told by the cured. It is sent free on request by the J. C. Ayer Co., Lowell, Mass. Write for it.

A REMARKABLE RUN.

A Hound Chased a Fox Four Days, Covering More Than Seventy Miles.

The most wonderful instance of the unflagging perseverance of a fox-hound that has ever been recorded occurred in Scotland, in 1808, near Dunkeld. On the 8th of June a fox was observed on the highroad, proceeding at a very slow trot, and at a short distance behind it was a fox-hound, travelling at the same gait. A countryman, by running, caught the fox without difficulty, and took it, together with the dog, to the house of a gentleman in the neighborhood, where in the course of a few hours the fox died.

It was afterwards learned that the hound belonged to the Duke of Gordon, and that he had started the fox on the morning of the King's birthday, on the top of the Monaliadh hills, which divide Badenoch from Fort Augustus. From this it appeared that the chase continued four days, and that the distance covered from the place where the fox was started to the spot where it was finally caught, without allowing for doublings and crossings, but taking it in a straight line, as the crow flies," exceeded seventy miles.—Harper's Round Table.

A SPIDER STORY.

Saved the Life of Frederick William, Grand-Uncle to the German Ruler.

In one of the splendid rooms of the palace of Potsdam one of the decorations is the figure of a large spider wrought in gold. According to the Portland Oregonian, a tradition as picturesque and interesting as that told of David of Israel and Robert Bruce attaches to this piece of work. It commemorates an incident in the life of Frederick William, the granduncle of the present Emperor of Germany. An attempt had been made to poison him in a cup of chocolate. By chance a spider fell into the cup and for this reason the beverage was given to a dog, who immediately upon taking it died. The cook was afterward hanged, and the golden spider in the Potsdam palace immortalizes the incident.

She Knew How to Ride a Tandem.

He was an estimable young man in every way, and she was more than estimable—in his opinion—so, with the idea of wheeling his way into her heart, he saved and hoarded his shekels and purchased a fine tandem. But "the best-laid plans o'mice and men gang aft agley." They had ridden some fifteen miles, and after slowly and laboriously pedaling to the top of a long hill he, after mopping his dripping brow, gasped out convulsively: "M—M—May, you c—c—can p—p—put your feet on the c—c—coasters now." "Why," said his companion, "I've had them on ever since we started." He said nothing, but set his teeth grimly, and she has wondered since then why he has not called on Sunday evenings.—Philadelphia Record.

Sunday Morning Lecture.

Mrs. P.—We have had a beautiful sermon.

Mr. P.—What was it about?

Mrs. P.—The text was, "Whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are lovely, whatsoever things"—

Mr. P.—Politics in the pulpit again! These confounded Mugwump preachers ought to be choked.

A Narrow Escape.

"Yes, that's Scrubbs, the great football player."

"How pale he looks."

"Yes, he had quite a scare this morning."

"What caused it?"

"He came very near getting in the way of a bargain day rush."—Cleveland Plain Dealer.

Can He See the Point.

"I see that a Chicago street railroad magnate has bought a newspaper of his own."

"That so? He'll probably put on cars enough now to make it possible for every passenger to have a seat."

"Why?"

"People can't hang on to straps and read at the same time."—Cleveland Leader.

If you would be well with a great mind, leave him with a favorable impression of you; if with a little mind, leave him with a favorable impression of himself.—Coleridge.

POKER GAMES SETTLED ANNUALLY.

The Old Colored Servant the Banker, Giving in His Report Yearly.

"Like Senator Henry Clay, the statesman from Kentucky," continued the raconteur from the South, "Senator Edward W. Pettus of Alabama is an inveterate card player, with a fondness for poker that is well nigh human in devotion. He has won and lost his thousands at one sitting. But to my story: There lived in Gen. Pettus's town, Selma, Ala., in the seventies a wealthy railroad President, Major Lanier of the old Alabama Central Railroad, running between Selma and Meridian, Miss., now a branch of the Southern Railroad system. The Major and General were boon companions, with a friendship almost as strong as that of Damon and Pythias. They used to spend their summers at the Major's summer home in Talladega, above Selma. Both of them devoted most of their time to playing poker, since the railroad President was equally fond of the game. 'Old Manuel,' the Major's colored body servant, would sit at the table and keep account of the winnings and losings, being the 'banker.' At the end of each year he would render accounts promptly, and whichever was indebted to the other would hand Manuel a check to square up the game. At the end of one year Gen. Pettus owed the Major $10,000; another year the Major was indebted to the General for $13,000, and so the game would run. It was never higher than $1 limit, and was kept up until the Major's death.—Philadelphia Times.

A Bridal Handkerchief.

When a young maiden is about to be married in the Welsch-Tyrol, immediately before she steps across the threshhold of her old home, on her way to the church, her mother solemnly gives her a new pocket handkerchief. The bride holds it in her hand throughout the marriage ceremony, using it to wipe away her tears. As soon as the marriage festivities are over the young wife lays the handkerchief aside in her linen closet, and there it remains as long as she lives. Nothing would induce a Tyrolese wife to use this sacred handkerchief. It may be half a century, or longer, before it is taken from its place to fulfill the second and last part of its mission. When the wife dies, perhaps as a gray old grandmother, the loving hands of the next-of-kin place the bridal handkerchief over the face of the dead, and it is buried with her in the grave.—Tit Bits.

White Sapphires.

Some of the most beautiful gems in the world are the white sapphires of Ceylon, for, strange as it may appear to persons accustomed to consider sapphire and deep cerulean blue synonymous, the Ceylonese gems, which are the finest in the world, range from soft, velvety blue to peacock blue, graduated in the latter to almost faultless white.

White sapphires are often clouded or streaked with blue, being white when looked at transversely after cutting, but having a bit of fine blue tint on the under point. It also occurs in greens and yellows, the former shade being known as the Oriental emerald, and the last as the Oriental topaz. —Philadelphia Record.

Compensation.

"Of cohse," said Mr. Erastus Pinkley, who had drifted into a philosophic vein, "you ain't gwinter be jes' saterfy wif dis life, not onless yoh show sense in yoh way o' lookin' at it."

"What's yoh way?" said Miss Miami Brown.

"Yoh wants ter average fings up. It's ve'y possible dat a man may deserve ter be rich an' famous an' not git dar, but on de yuthub han,' its ve'y possible dat a man may deserve ter be in jail an' not git dar, neither." —Washington Star.

A Fence Seventy Miles Long.

The longest fence in the world is probably that which has just been finished by the Erie Cattle Company along the Mexican border. It is seventy-five miles in length and separates exactly, for its entire distance, the two republics of North America. The fence was built to keep the cattle from running across the border and falling easy prey to the Mexican cow-punchers. Although it cost a great deal of money it is estimated that cattle enough will be saved in one year to more than pay for it. It is a barbed-wire fence, with mesquite and cottonwood poles, and for the entire length of it runs as straight as the crow flies.—New Orleans Times-Democrat.

Shakespeare's Daughter.

Shakespeare's daughter, Judith, who was thirty-two when he died, survived him forty-six years and became a Puritan. So rigid was she that she would never go near a playhouse, and was intolerant of everything theatrical.

Oriental Charity.

A regularly organized system of relieving poverty has been in vogue in China for more than 2,000 years. It is said that an organized system of charity prevailed among the Egyptians 2,500 years before Christ.

Meeting of the P. O. S. of A.

Thursday evening April 15th, 1898, the P. O, S. of A., spent a very enjoyable time at the home of J. H. Reed, on Thomas street. He being an old member of the order, the brothers gathered to show their respect. They met about eight o'clock and had a very nice time until eleven o'clock, when a sumptuous supper was served by the ladies, of which all partook very heartily. After supper two elegant addresses were made by Reuben Miller and Philip Smith, after which prayer was offered in behalf of the order, followed by singing and a good time in general. About Twelve o'clock they took their departure, feeling they had spent a pleasant evening. All right P. O S, of A. come again.

One of Two Ways

The bladder was created for one purpose, namely, a receptacle for the urine and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort, The error is easily made and may be as easily avoided To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble, The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kinney, and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one doller. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton N. Y. the proprietors of this paper guarantee the genuineness of this offer.

And Perhaps She is Right.

A Boston girl who has been trying to find out why her bicycle often runs into objects she trys to avoid thinks she has solved the problem at last. She says:

It is hypnotic influence of concentrated attention, rendering the movements incoordinate, so that the rider becomes the victim perverted reflexes of purposeless effort and the object subject of an optical delusion."

Sold His Beautiful Home.

For the last few months Mr. James R. Harris, of Philadelphia, has been negotiating with Mr. Fearon Mann as to the purchasing of Mr. Mann's beautiful home on North Ailegheny street, But, as Mr. Mann had been called away on business, the negotiation was discontinued until he would return home again. So last week the matter was settled, Mr. Harris giving in the neighborhood of six thousand dollars for the Mann residence. Mr. and Mrs. Harris expect to move to Bellefonte soon.

While some for peace are working,
And some for war would roam,
We're painfully reminded
There's trouble right at home.
The man who's been preparing
To wallop every Don
Now mournfully surrenders—
The spring housecleaning's on.

—Somebody has turned back the clock on the weather.

—Tailors are being rushed on spring orders.

—The Spanish mosquito fleet hasn't been blown away once this week.

—An enterprising Chicago restaurant man printed this choice morsel on his bills of fare: "Julia Marlowe, now at the Columbia theatre, is a leader, and so are our New England boiled dinners, 15 cents. Go and see her and then look at our pigs' feet cabbage, 10 cents."

—Thursday being the 50th birthday of Mr. William Mills Sr., quite a number of his friends gathered at his home and had a splendid time. Mr. Mills was the recipient of many beautiful and useful presents.

Mr. Charles Bowes of Bellefonte has had his pension increased from six to eight dollars per month.

Save The Children.

When children are attacked with cough, cold and croup, Dr. Bull's Cough Syrup will prove a quick and sure cure. Mr. Elmer E. Baker, Blandon, Pa., writes: "We have used Dr. Bull's Cough Syrup for cough, cold and croup, and found it the best cough medicine and cure for these affections. We never run out of it, but always keep it on hand." Dr. Bull's Cough Syrup is sold everywhere for 25 cents. Insist on having it.

It Travels Fast.

A comet now in the sky will be taken as a war sign by the superstitious. The astronomers of the University of California, at Berkeley, have completed their computation of the comet discovered recently by Professor Perrine, of the Lick observatory, and according to them the comet will become brighter and remain in sight for some time. It is now traveling toward the earth at the rate of 1,000,000 miles a day. For the next two weeks it will continue to move northeasterly at the rate of one degree a day north as well as east. It is visible about 5 o'clock in the morning. The comet is on the western border of Pegasus and moving northeast one degree daily. It is not visible to the naked eye, but may be seen with a small telescope.

Will Serve as Jurors.

Robert Hunter, of this city, has been drawn as a juor to attend the next session of the United States circuit court to be held at Pittsburg. Other jurors drawn from this section are as follows.—H. C. Olmstead, Coudersport; D. B. Kunes, Blanchard; J. C. Connelly, Clearfield; B. S. Bentley, jr., Williamsport, Samuel C. Bryan, Snow Shoe; William B. Foresman, Milton; R. H. McCormick, Watsontown; D. W. Butterworth, Coudersport; L. D. Ripple, Costello; J. C. Fowler, Watsontown. P. P. Rittman and George Reed of Lock Haven.

You Should Not Hesitate.

If you are troubled with dyspepsia, or liver and kidney trouble, Dr. John W. Bull's Pills will cure you. "I find Dr. Bull's Pills a good remedy for dyspepsia and biliousness, and I do not hesitate to recommend them to every one in need of such a medicine. T. J. Burke, Davenport, Ia." Dr. John W. Bull's Pills (sixty in a box) cost but 25 cents; trial box, 10 cents, at all dealers, or by mail. A. C. Meyer & Co., Baltimore, Md. Don't buy a counterfeit.

Art Idols of the Paris Salon.

The thirteenth number of Great Pictures is now ready and contains the following beautiful plates, 14 x 17 in size, fit for a frame:

"A Nude" (M. Arosa) representing a young girl descending to her bath, and strewing the water with rose leaves before she enters it. A sweet face and perfectly developed figure, being cast in fine relief against the dark stone pillars.

"Innocence" (E. Benner). A pool in the foreground; with broad pads of water lilies, while on the bank reclines a female figure. The eyes of the figure are gazing at the reflection mirrored in the pool, the lips have a smile on them and the hands are uplifted in sportive manner.

"Nymphs" (E. Benner). Introducing four plump female figures in the foreground. Two brunettes are seated, while a third is wading in a pool and the fourth is calling by reed music to some one invisible over the hills.

"Chicago Day at the World's Fair.' (W. H. Jackson). One of the most important days of the Fair.

"Group of Statuary" (W. H. Jackson) Another beautiful feat of the Fair grounds.

Persistent Coughs

A cough which seems to hang on in spite of all the remedies which you have applied certainly needs energetic and sensible treatment. For twenty-five years that standard preparation of cod-liver oil,

SCOTT'S EMULSION

has proved its effectiveness in curing the trying affections of the throat and lungs, and this is the reason why: the cod-liver oil, partially digested, strengthens and vitalizes the whole system; the hypophosphites act as a tonic to the mind and nerves, and the glycerine soothes and heals the irritation. Can you think of any combination so effective as this?

Be sure you get SCOTT'S Emulsion. See that the man and fish are on the wrapper.

WANAMAKER IN THIS CITY

Addressed A Large Audience In Garman's Opera House.

J. A. AIKENS PRESIDED AT MEETING

Special Delegations Were Present From State College, Pine Grove, Scotia and Points in Nittany Valley.

THREE BANDS OF MUSIC PRESENT

After many disappointments the people of Bellefonte had the honor Tuesday evening of listening to Hon. John Wanamaker, who for 4 years discharged with signal ability the duties of postmaster-general under the administration of Benjamin Harrison, and who ranks among the merchant princes of the world. Many people in Bellefonte and Centre county do not agree with him in his present attempt to create discord in the Republican party but yet all were anxious to hear what the distinguished gentleman had to say.

As early as half-past-six the street began to be crowded with people and special trains on the Bellefonte Central Railroad and Central Railroad of Pennsylvania brought large delegations from State College, Scotia and Nittany Valley. Two bands were present from out of town; one from Scotia and the other from State College. While awaiting the arrival of Wanamaker they gave a delightful band concert in the diamond.

The opera house where the meeting was held was well filled long before the time for Mr. Wanamaker to arrive. At 8 o'clock it was called to order by the chairman Mr. J. A Aikens, who delivered an eloquent address after which he introduced Major George Merrick, of Wellsboro, who held the attention of the audience up until the arrival of the speaker of the evening.

Mr. Wanamaker and party arrived in Bellefonte on the regular train at 8:31. He was meet at the depot by the reception committee composed of the following named gentlemen: Col. James P. Coburn, chairman, James Harris, John P. Harris, Charles F. Cook, John Meese, Isaac Mitchell, R. W. McCurdy and Wm. P. Humes. The Undine band was present at the depot and discoursed delightful music as the party alighted from the train. Carriages were in waiting to convey Mr. Wanamaker and his friends to the opera house but he prefered to walk.

It was about nine o'clock when Maj. Merrick closed his address and Mr. Wanamaker was introduced.

There was probably 1000 people in the house when he arose to speak. Among those present was a party of ladies headed by Mrs. D. H. Hastings, Mrs. James P. Coburn and Mrs. Burnett, daughter of the late Gov. Curtin.

Acting as vice-presidents of the meeting were: Isaac Underwood, Colonel Coburn, Nicholas Bauer, Charles W. Cook, A. C. Mingle, P. B. Crider, Col. Wilbur F. Reeder, C. W. McCurdy, John Meese, Isaac Mitchell, Martin Reese and John P. Harris.

Mr. Wanamaker in the course of his remarks paid a high tribute to Bellefonte and its people as the home of Gov. Curtin, Gov. Hastings and Gov. Beaver. He also paid a high tribute to the late Col. William Shortlidge whom he knew personally. The principal part of his speech was taken up with an attack on Senator Quay and the interest of himself as a candidate for governor. He is a graceful and fluent talker and was listened to with close attention by all present. His reference to the Cuban question was as follows:

This is the anniversary of the day that the first gun was fired at Lexington that was heard round the world. The spirit of the Revolution is still upon this continent, yet in its infancy, but from the beginning a giant in its resistance to oppression. The peaceful Potomac, long silent to the din of war, wakes again from its slumbers and the White House on its shores, the heart and soul of the nation, rings out the signal that is answered by the bugle call and the tread of marching feet. The old flag is aloft and onward she sweeps to wrap in her beautiful folds the downtrodden and oppressed, and to proclaim liberty throughout the land and to all the inhabitants thereof. The old bell of Independence Hall moves on again in triumph to ring out the message of freedom. Among these beautiful hills, far from the rattle and roar of war, we meet with quiet hearts, profoundly confident of the justice of our cause and fully assured that we are able to maintain it. This meeting, at such a time, is a splendid object lesson to the world of the inner strength of the American character that can serenely conduct upon the sea a war if forced to it by another nation, and at the same time continue upon the land the pursuits of peace.

It was eleven o'clock when Mr. Wanamaker finished and the meeting then adjourned. Mr. Wanamaker spent the night at the Bush House leaving Wednesday morning for DuBois where he spoke that night.

BEASTS AND BIRDS.

Ringling Bros. Combine a Circus, Menagerie, Aquarium and Aviary.

Ringling Brothers, the progressive proprietors of the World's Shows, which exhibit in Bellefonte Tuesday May 10, have this season introduced a new departure in zoological displays. For a number of years they have had in mind "the ideal menagerie" and each successive season has placed their zoological display more and more beyond the imitation of their competitors. The present season has brought their long contemplated plans to perfection and placed their zoological exposition absolutely beyond competition. Many notable innovations have been introduced, and the diversity of the display is constantly a source of wonder and delight. Naturally, the most conspicuous feature of the menagerie is the immense herd of elephants. There are Twenty-five of these strange and always interesting animals, ranging from the tiniest baby to the towering Asiatic colossus This is by far the greatest number of elephants ever seen in one exhibition, and the sight is impressive and awe-inspiring. Among the other led animals are many beautiful specimens of the yak, the gnu, the llama, and even the aurochs, the European bison with which Ursus battled in the famous story of "Quo Vadis." The display of lions and other carnivorous wild animals is superb. A new and striking feature, introduced this season, is the aviary. In this remarkably beautiful display Ringling Brothers again attest their originality as well as the superiority of their exhibition. Other shows are content with a single cage of conventional birds. Ringling Brothers present a complete ornithological collection, containing almost every known species of bird, from the familiar domestic canary to the rainbow-hued tropical bird of paradise. Nothing like this display has ever before been in the United States, and it has created a sensation wherever the show has exhibited. Another new departure is a complete aquarium of water-frequenting wild animals, embracing specimens of the hippopotamus, sea lion, seal, Polar bear, crocodile and other animals and saurians of this character: The display is a notably complete one, and one which the student of history can find nowhere else in the world. Ringling Brothers have always paid particular attention to the pleasure of the little folks, and the introduction of their special children's menagerie last season was an extremely popular move. This season the children's menagerie has been greatly augmented and many new features added. The most notable is a huge den, arranged as a monkey play ground, with a miniature merry go-round of carved lions, giraffes and other animals. It is a laughable sight to see the monkeys riding on the carroussel, and nothing in the exhibitional way has ever created such a furor among the children. An interesting incidental feature of the menagerie is the ladies' orchestral symphony club which presents an hours program in the menagerie prior to the performance in the immense hippodrome amphitheater.

Sociable Postponed.

The Christian Endeavor Society of the Presbyterian church have postponed their sociable which was to have been held Friday evening April 22nd until Friday evening April 29th. The reason of this is that on the coming Friday evening, Rev. Miles O. Noll will deliver a lecture in the Court house for the benefit of the Reformed church and the Christian Endeavor society do not desire to conflict with this. On the last named date they will hold their sociable and everyone is cordially invited to be present and a good time is assured. Admission 10 cents.

DAUGHTERS OF REVOLUTION.

Will Place A Marker at Old Fort Potter.

In Centre county there was erected in 1777 a fort in Penns valley known as Potters fort, because it was built by Gen. John Potter, famed for his Revolutionary war services, as well as for his sagacity as an Indian fighter, and whose descendants are quite numerous in this place. At that time this was the only fort within a radius of 75 miles and on various occasions was the refuge of early settlers when the Delaware and Shawnee Indians went on the warpath. The fort was a rude but unusually solid structure of logs and stone, and withstood the most prolonged attack of the redskins. Though the fort and stockade with which it was enclosed have long ago crumbled to dust, there is a fairly well identified spot as its location, which was on a slight elevation, north of where the Old Fort hotel now stands, and adjoining a clear spring of water, from which the inmates of the fort obtained their supply of water while cooped up to escape the deadly arrows and scalping knife of the Indians. History records but little regarding this fort, but from data in the possession of the decendants of the pioneers of the valley it is gathered that it was one of the most important forts in the State at that early day. For this reason Bellefonte chapter, Daughters of American Revolution, has determined to erect a marker at its own expense. Several acres of ground surrounding the site of the fort have been secured and will be enclosed and beautified with trees, shrubbery and flowers. The work is now so far progressed that it is certain of an early completion. At the last meeting of the chapter a committee consisting of Mrs. Isaac Mitchell. Mrs. Frank McCoy, Mrs Archibald Allison and Mrs. Ellis Orvis was appointed to select and have erected a stone marker. This committee has already ordered the stone, which will be of gray marble, chipped on three sides, with a finished face for a suitable inscription. It is two feet square by four feet six inches high. It is expected that the stone will be here, inscribed and ready for erection by the middle of May, at which time it will be dedicated with all due formality. The promptness with which the ladies of the Bellefonte chapter have gone about the work will entitle them to the honor of erecting the first colonial fort marker in the State, and will give to other chapters an example worthy of emulation. Although not as large as some others, Bellefonte chapter, D. A. R., is one of the most flourishing in the State. Its membership numbers between 35 and 40, and includes many of the most prominent ladies in the town. The present officers are: Regent, Mrs A. O. Furst; secretary, Miss Caroline Orvis; treasurer, Mrs. F. W. Crider; historian, Miss Jennie Shugart. It is also a noteworthy fact that a number of the members are descendants of the man who erected the fort whose site is to be marked. The ladies have been assiduous in their work and sparing neither in labor nor cash.

Reception to Perian Society.

On Saturday evening April 16, Miss Julia L. Reed gave a very pleasant reception to the young ladies of her class numbering twenty-one in all. These young ladies also compose what is called the Perian Society.

Miss Elizabeth Gephart, daughter of J. W. Gephart and Miss Margaret Thomas, daughter of F. H. Thomas, won the prizes that were given for the greatest number of correct answers given in a geographical game. During the evening many pleasant games were played and elegant refreshments served, at a late hour the young ladies repaired to their homes after spending a most enjoyable evening.

DEATH OF MRS. GEARHART.

She Passed to Her Eternal Home Sunday at 9:30 a. m.

Sunday morning at half past nine just as the christian people of our town were preparing for divine service the spirit of Mrs. Gearhart wife of the Reformed minister, Rev. R. Leighton Gearhart, wended its way to that eternal home beyond the clouds.

Although she had been ill since last June yet her death at this time was entirely unexpected. Her husband had gone to Laurelton, Pa., where he preached Sunday morning and where he received the sad news Sunday evening of the death of his wife. She had been suffering from cancer of the stomach and everything that medical skill could do to save her had been done but to no avail. Through all her illness she was a gentle patient sufferer never complaining but bearing her pain with true christian fortitude.

Mrs. Gearhart was born at Bedford, Bedford county on the 21st of August 1849, making her age at time of death 48 years 7 months and 21 days.

Her maiden name was Carrie Cessna, she was a daughter of the Hon. John Cessna, of Bedford county. She is survived by her husband Rev. R. Leighton Gearhart formerly pastor of the Reformed church at this place but now editor of the Reformed Sunday School Tract, published at Lancaster, Pa., and by four children namely: Paul, Florence, Edith, and Arthur. Her mother, two brothers and one sister also survive her.

Funeral services were held at the parsonage at 12 o'clock Tuesday. A choir composed of Mrs. Harry Jenkins, Miss Lulu Harper, Messrs. Lukenbach and Bullock, rendered music which was very pretty. Rev. Dr. Derr, of Lock Haven, had charge of the services he being assisted by Rev. Runkle of Hublerburg, Rev. Black of Boalsburg, Rev. Isenberg of Centre Hall, and Rev's Dr. Laurie and Dr. Stephen of Bellefonte. Dr. Derr selected his text from the 15th chapter of 1st Corinthians. He also spoke beautiful on the life of the departed one and did all in his power, to impress those who were bereaved of a mother and wife, that it was Gods will and not our own that should be done.

The body was taken to Bedford on the 1:5 train going west where there will be services held at Mrs. Gearharts old home. The interment will also be made in the Reformed cemetery at that place.

The pall-bearers were the following named gentlemen Messrs. Jared Harper Wm. Humes, Thomas Moore, Wm. Conley, A. C. Mingle, Charles F. Cook.

TWO HEARTS THAT BEAT AS ONE.

Harry A. McKelvey of Marth Furnace and Miss Alice V. Hicks of Stormstown.

A quiet but very pretty wedding took place Wednesday afternoon at 3 o'clock in the parlors of the Garman House, this city. The happy young couple who took this important step in life, were Mr. Harry A. McKelvey, of Martha Furnace and Miss Alice V. Hicks, of Stormstown.

The ceremony was performed by Rev. Allen A. Rhen, pastor of the United Brethern church of this place After the ceremony, they received the congratulations of those present and then prepared to take the 4:44 train for Martha Furnace, where the groom has a comfortable home prepared for his bride,

Mr McKelvey is a prosperous young farmer and is a son of John McKelvey, of Martha Furnace. The bride is a daughter of Jacob D. Hicks, one of Half Moon valley's most representative men and a well to do farmer. This paper extendes its heartiest congratulations to Mr. and Mrs. McKelvey.
